

Product Spotlight: VersiGard® Cool Gray EPDM Membrane

This month, our product spotlight is Versico's VersiGard® Cool Gray, industry-leading UV weathering, 60-mil Non-Reinforced EPDM for adhered roofing solutions.

Here are some of the benefits

- 60-mil, non-reinforced membrane for new construction and re-roofing
- Reflective (SRI: 55) with a "dry-down" effect - balancing energy costs year-round
- 540% elongation for superior hail resistance
- Stays flexible down to -40°F
- Quick-Applied Tape seam technology saves labor on every install
- Available for up to 25-year warranties - UL and FM approved

If you're working in a transitional climate zone, this is the membrane worth specifying. Reach out to your DRS rep to learn more and download the brochures to learn more.
